

Telalarm HS-2

Emergency telephone / Auto-dialer

Description:

The Telalarm HS-2 is a handset type emergency telephone auto-dialer. When the handset is lifted, the HS-2 dials a primary telephone number. If the number is busy or does not answer, the HS-2 will hang up and dial the next number and so on, up to 10 numbers.

Features:

- ▲ Automatically dials a programmed telephone number of up to 16 digits. For added security, the HS-2 can be programmed to autodial up to 10 numbers. .
- ▲ Two modes of operation, standard emergency dialing mode or emergency ring-down mode.
- ▲ Emergency mode calls can only be terminated by remote attendant.
- ▲ One output relay for control of emergency strobe equipment.
- ▲ Operates on 12v AC or DC. with telephone line power backup
- ▲ Programmable site ID.
- ▲ Armored cable handset
- ▲ Remotely programmable from any touch-tone telephone. or optional RS232 real time polling/programming interface,
- ▲ Braille "emergency phone" plate.
- ▲ Non-corroding #316 Stainless Steel weather resistant enclosure with 'tamper resistant' security screws & Armored cable handset.
- ▲ Slim design for easy mounting.

Applications:

- ▲ "Area of rescue" telephone for high rise buildings.
- ▲ Emergency telephone for public areas.
- ▲ Security/Help telephone for parking structures.
- ▲ Security/Help Telephone for Banks / ATM

Operation:

When the handset is lifted, the Telalarm HS-2 calls a programmed telephone number. If the called number is busy or does not answer, the HS-2 will automatically dial a second number and so on up to 10 telephone numbers.

It will continue dialing until answered. Once answered, assistance may be rendered.

The Telalarm HS-2 has two operating modes:

Standard Emergency Mode:

As soon as the handset is lifted, the unit engages its primary relay for the duration of the call, and then begins dialing according to its programming. This call can only be terminated by the answering party. This mode is frequently used for help, assistance, and duress call applications. Warning lights and camera switches may be attached to the relay. This provides immediate notification and attention to problem situations.

Ring Down Mode:

When the handset is lifted, the unit engages its primary relay for the duration of the call, activating the emergency strobe light. The HS-2 seizes the telephone line and waits for the PBX to dial a preprogrammed number. This call may only be terminated by the called party. The optional ring down mode is set to utilize "Called Party Disconnect". The HS-2 will hang up within 8 seconds after the called party hangs up.

Telalarm HS-2

Emergency telephone / Auto-dialer

Specifications:

Design- Handset style telephone.

Capacity - Up to 10 numbers, each up to 16 digits in length.

Operation Modes - Two; Standard Emergency and Emergency Ring down.
